

# NUARL® NEXT1L

## User Guide

Find and download the "NUARL Connect" app.

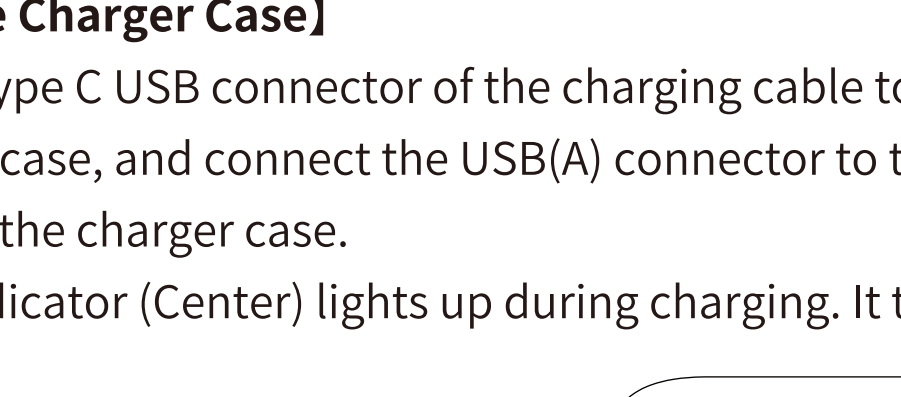

## Product Diagram

## Before Use

### Remove Insulating Sheet

Remove Insulating sheet from back side of earbuds.

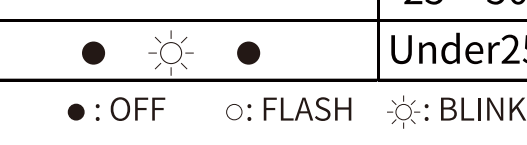

### Battery Charge

#### [Charging the Charger Case]

Connect the Type C USB connector of the charging cable to the USB port on the side of the charger case, and connect the USB(A) connector to the USB charging adapter to start charging the charger case.

The charge indicator (Center) lights up during charging. It turns off when charging is complete.

Charge Indicator (Center)  
(Lights up orange during charging)

#### [Remaining battery level]

When the earphones are attached or detached, the charging indicator lights up for approximately 2 seconds depending on the remaining battery level in the charging case.

Charging Indicator	Remaining
○ ○ ○ ○	Over 75%
○ ○ ● ○	50~75%
○ ● ● ○	25~50%
● ● ● ●	Under 25%

●: OFF ○: FLASH ※: BLINK

### CAUTION

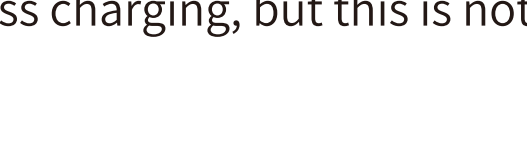

※If the built-in battery in the charger case is low, the Earbuds will not turn off and will not charge even if the Earbuds is attached to the charging case. Also, please note that the Earbuds will turn on when the battery in the charging case runs out of power while the Earbuds is installed in the charger case.

※To protect the built-in battery, disconnect the charging cable as soon as possible after charging is complete. If the product will not be used for a long period of time, recharge the battery at least once a month.

#### [Charging the Earbuds]

Inserting the Earbuds into the charger case will start charging the Earbuds.

While charging the Earbuds, the charging indicator (left and right) will flash orange. When the Earbuds are fully charged, the charging indicator will turn off.

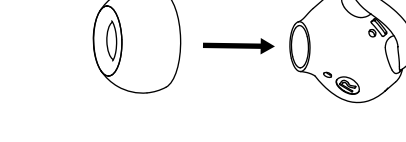

Charge Indicator (Left and Right)  
(Flash Orange during charging)

#### [Wireless Charging]

The charger case supports wireless charging. Charging can be done by touching the bottom of the charging case to the center of a Qi or other wireless charging pad.

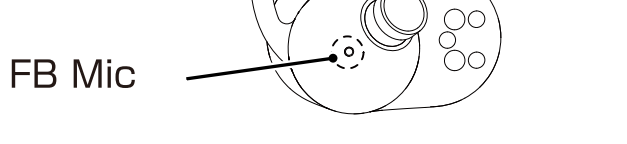

- ※ Please be careful not to trap foreign objects between the charging case and the wireless charging pad.
- ※ Wireless charging cannot be performed while USB charging is in progress.
- ※ The device may become hot during wireless charging, but this is not a malfunction.

Wireless Charging Pad

### Installation of Ear Loops and Ear Tip

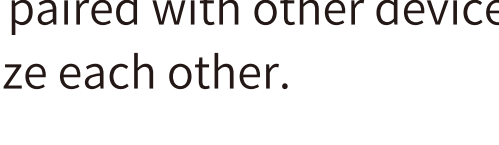

Please install and use Ear loops and Ear tip in the size of your choice.

### CAUTION

Be sure to install the Ear Tip and Ear Loop before use.

Also, be careful not to block the FB microphone when attaching the earloop.

FB Mic

## Pairing

### Pairing

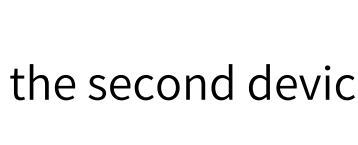

To use Ear Buds first time, you must pairing Ear Bud with mobile phone or player. Once your Ear Buds is paired with other devices, they will remain paired and automatically recognize each other.

#### [First time to use]

1. Turn on Bluetooth function of your mobile phone.
2. Turn on the power of both earbuds.
3. Select "NUARL NEXT 1L" in discovered device list of the phone.
4. Click "Pair" in the phone display.

#### [Re-pairing or Pairing with second mobile phone]

1. Turn on Bluetooth function of your mobile phone.
2. When Earbuds is not connected to any other device, the LED indicator will blink alternately in white and orange after 6 seconds.
3. Select "NUARL NEXT 1L" in discovered device list of the phone.
4. Click "Pair" in the phone display.

LED

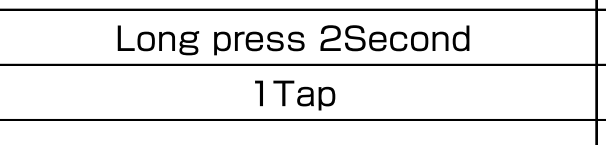

## Multipoint Connection

This product supports Multipoint connection, which allows you to connect to two devices simultaneously.

To use the Multipoint connection, the second device must be paired with this product in advance.

- Up to two devices can be connected via a multipoint connection.
- Music can be played on either device being connected, but music from two devices cannot be played at the same time.
- If one device is playing music, operating the other device will not switch the music. Please stop playback and then operate the other device.
- It is recommended to turn off high quality audio codecs such as LDAC, etc., as communication is more likely to be interrupted during multipoint connections.
- When reconnecting, only one device will be reconnected automatically; to connect the other device, connect it manually from the Bluetooth setting on the device side.
- During a multipoint connection, the operating time is reduced due to increased power consumption.

## Operation

Touch Area

		L	R

## Active Noise Canceling (ANC)

This product equipped with active noise cancellation (ANC).

Each time you press the sub-button, the function switches from ANC to Ambient and then to Off.

This product's active noise canceling function uses microphones to capture external noise.

It captures sound and digitally reduces unwanted noise.

The effectiveness level of active noise cancellation can be changed in the NUARL Connect app.

## Ambient Mode

This product is equipped with an Ambient mode that allows you to listen to ambient sounds from the microphone.

The operation settings for Ambient sound function can be changed with the NUARL Connect app.

When the wind hits the earphones with the Ambient mode enabled, a wind noise can be heard. This is not a product defect.

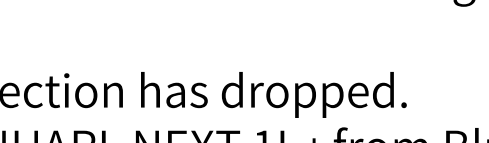

## Gaming Mode

By enabling the gaming mode, you can reduce the audio delay in relation to the video. However, sound quality and Bluetooth stability may be degraded while in the gaming mode.

## NUARL Connect App

The NUARL Connect app (free of charge) allows you to get the most out of this product. You can customize various features, update the firmware and more.

Download the app by searching for "NUARL Connect" in the Apple App store or Google Play store.

### NUARL Connect Main Features

- Adjust the ANC effect level
- Adjust the Ambient Sound effect level
- Equalizer setting
- Operation Setting
- Firmware update

※The function of the app may change with the version up.
